ESSENTIAL CHEMICAL

Essential Chemical can assist with recommending the correct LMI pump for your applications. Contact our technical support team for assistance.

Industry Standard
Series B Chemical Metering Pump

Year after year of reliable performance.

An industry standard for over 20 years, the Series B Chemical Metering Pump is a rugged, reliable choice for the harshest environments.

Its 100% enclosed chemical resistant housing provides the solenoid unit with ultimate protection, making it ideal for corrosive chemical dosing.

With a variety of models and options available, you have full flexibility to control stroke length and frequency, pressure capacity, pulse / 4.20 mA inputs and more.
